

PRICES

The prevention-center stands for highest quality at fair prices. At this, transparency plays an important role for us.

FINANCING

Because health insurances do not bear the costs for our services in the sections beauty, aesthetics and surgeries, we offer you the opportunity to finance the costs of your treatment. Through monthly rates you can easily balance them via [Cashmed](#).

Furthermore we would be happy to comprehensively inform you about our prices and financing possibilities during a personal [consultation](#).
